EASY DUMP FEATURES

**60/40 or 70/30
split models
available
for recycling**

**Mounts directly
to chassis or
bed of truck**

Convenient

Designed for hauling trash, ground cover, and yard waste in restricted areas where large trucks are prohibited. Utilized with a pick up truck, this unit becomes a multi-purpose tool for any general hauling projects.

Installation

Installation is easy and there is no modification required. All hardware and wiring is included and is ready to mount. Unit can be mounted onto truck bed or directly to frame.

Heavy Duty Construction

Heavy duty steel body with structural tubing frame assembly. Self-contained dual cylinder electrical hydraulic system is designed to be waterproof. Hinge point lubrication and 3/4" solid steel hinge pins provide long life to the unit. Drain hole for easy clean out.

Finish

Powder coat finish
